

University of Agriculture in Krakow

Institute for Plant Production

REFERENCE LETTER

Institute for Plant Production – University of Agriculture in Krakow, confirms participation of Professor Aleksander Szmigiel in study trip to China.

The purpose of the study trip organized by Euro Asian Foundation for Business Education on 06-15.12.2013, was to establish scientific cooperation with universities in China as well as establishing contacts with local authorities responsible for higher education in the cities of Tianjin, Ningbo and Taizhou.

Thanks to very well substantive and organizational preparations done by Foundation, the trip with purpose of establishing scientific cooperation with universities from cities mentioned above, have been realized. The measurable effect was signing a cooperation agreement and Letter of Intent between Institute for Plant Production – University of Agriculture in Krakow and two universities in China. During the stay in China, apart from establishing scientific cooperation, I was also able to become acquainted with didactic base and laboratories at individual universities.

Krakow, 10.01.2013

Director of Institute for Plant Production

Professor Aleksander Szmigiel
